

My own Linguistic Landscape in Kiel

1. Design your own linguistic landscape item for an area of your choice. Which language(s) do you miss in the respective area? You can either adapt an already existing linguistic landscape item or design an entirely new one.

A large, empty rectangular box with a thin black border. At the top-left and top-right corners, there are light blue, rectangular tabs with a slightly wavy, torn-edge effect, suggesting the box is a page from a notebook or a design template.

2. Get ready to present your linguistic landscape item in class and justify your language choice(s).
