Exploring Linguistic Landscapes in Kiel

1. In your groups, search for linguistic landscape items in the area assigned to you and document them.

Example:

2. Upload your items to the digital pinboard.

3. Analyze your documented linguistic landscape items. To do this, answer the following questions on the digital pinboard for each item.

a) <u>Where</u> was the sign found?
b) What <u>type of sign</u> is it?
c) Which <u>languages</u> can you identify?
d) Who put the sign there (<u>bottom-up/top-down</u>)?
e) Who is the sign <u>addressed to</u>?
f) What is the <u>intent</u> of the sign?

4. Summarize the key findings of your analyses.

Example: Which languages were found most frequently in your area?

5. Present your results in class.
